

EDENICS is about **sound** and **sense**—*MUSIC* and *MEANING*—in language. *EDENIC* (Proto-Semitic, best documented in Biblical Hebrew) was **HARD-WIRED** in the brains of **Modern Men** (since *Eden*). Its software design matches the hardware **ANATOMY** of **Lips, Throat, Tooth Ridge, Nose, Tongue, and Whistling Air** (to pronounce the letters/sounds).

Then, in Shinar (*Sumer*, referenced as the later Babel) a neuro-linguistic disturbance was the Big Bang of language dispersion. The single, species-wide human language program was diversified into 70 languages. The ongoing natural breakup of these languages, like Proto-Germanic, have now given us 6000 “languages” (really dialects), like English.

Genesis 11 does not reveal the mechanics of the **TOWER OF BABEL**’s “confounding,” but global Edenicists are making great strides. Firstly, there were immediate **LETTER SHIFTS within 7 ANATOMICAL GROUPS**.

- ❑ Interchangeable **Voiceless Vowels**: *Aleph/any Cap Vowel & Sometime Vowels, Hey/H, Vav/OO or OA, Yod/Y,J or eeY Ayin/GH or bracketed [Cap Vowel]*

א ה ו י ע

- ❑ Interchangeable **Bilabial Letters (LIPS)** **ב ו פ**
Bet/B, Bhet/BH or [V], Vav/V or W, Pey/P, Phey/PH or F

- ❑ Interchangeable **Guttural Letters (THROAT)** **ה ג ח כ ע ק**
Hey/H, Gimel/G or J, Het/[K]H or K[H], Kahf/K, Khaf/KH, Ayin/GH or bracketed [Cap Vowel], Koof/Q

- ❑ Interchangeable **Dental Letters (TOOTH RIDGE)** **ד ט צ ת**
Dalet/D, Tet/DT, Tsadi/TS, Tahf/T, Thaf/TH

- ❑ Interchangeable **Nasal Letters (NOSE)** *Mem/M, Noon/N* **מ נ**

- ❑ Interchangeable **Liquid Letters (ROLLING TONGUE)** **ל ר**
Lamed/L, Resh/R or WR

- ❑ Interchangeable **Fricative/Sibilant Letters (WHISTLING)** **ז ס צ ש ת**
Zayin/Z, Samekh/\$, Tsadi/TS, Sin/S, Shin/SH, Sahf/(S) (Sahf is a variant of Tahf)

EXAMPLES:

■ Sometime VOWEL to Voiceless VOWEL	<i>YaGOAN</i> to <i>AGONY</i>	יגון
■ LIPS	BILABIAL SHIFT <i>aBBa</i> to <i>PAPA</i>	אבא
■ THROAT	GUTTURAL SHIFT <i>QeReN</i> to <i>HORN</i>	קרן
■ TOOTH RIDGE	DENTAL SHIFT <i>AReTS</i> to <i>EARTH</i>	ארץ
■ NOSE	NASAL SHIFT <i>IYLaN</i> to <i>ELM</i>	אילן
■ ROLLING TONGUE	LIQUID SHIFT <i>[K]HOAR</i> to <i>HOLE</i>	חור
■ WHISTLING	FRICATIVE SHIFT <i>SHaQeL</i> to <i>SCALE</i>	שקל

Secondly, METATHESIS *scrambled* ROOT WORDS: positions 1-2-3 of ROOT LETTERS swapped places in traceable patterns, even Reversals. (Reversals are most common with two-letter root words) . EXAMPLES:

- ❑ **DEGREE** M132 (easiest) from DaRGaH (step, rank) דרגה
- ❑ **WORD** M231 from Da[V]aR (word) דבר
- ❑ **BEAUTY** M213 from TZiBHeeY (beautiful) צבי
- ❑ **MERCY** M312 from RaK[H]eM (mercy) רחם. רחמנות
- ❑ **TERRA** M321 (Reversal) from AReTS (earth) ארץ

During millennia of language corruption, *survival of the easiest* caused **NASALIZATION (inserting extra Ns or Ms)**. EXAMPLES:

- ❑ **AND** [O]aWD (furthermore) עוד
- ❑ **SLING** SHaLaK[H] (to send off, release, throw) שלח
- ❑ **SWAMP** \$OOF (German Sumpf, a marshy swamp, bog) סוף
- ❑ **BRONZE** BaRZeL (bronze, brass) ברזל

With Edenics we can now know WHY words mean what they do. Why is a Spanish firemen a *bombero*, and a French one a *pompier*? Because firemen PUMP water, and history's first PIPE was the ABOOBH , אבוב (hollow reed). See **Nasalization and **Bilabial Shifts** above.**

Languages everywhere are ultimately from Babel.

The migrating Native Americans "remembered" the *Edenic* word צחן **TSaK[H]aN** (stink), scrambled a bit at Babel, when they encountered a black and white stinker. *English* got **SKUNK** from Native Americans.

To hear STINK or **SCANDAL** (a big stink), see the **M132 Metathesis** above.

Edenicists apply fundamentals of **SOUND-BASED LETTER SHIFTS, METATHESIS, and NASALIZATION** to search for *Edenic* ROOTS. Only a few hundred words are as simple as Japanese SaMuRai (the emperor's royal guard) from SHoMeR שׁוֹמֵר (guardian). The vast majority of words are as hard to get as 1) English LONG from *Edenic* AROAKH אֶרוֹךְ (long) -- the Resh has to shift **liquids** to L, and an added N (**Nasalization**) must be felt . Or 2) English WORD (before German *vort*) from *Edenic* Da[V]aR

דבר (word, thing) – where an M231 metathesis with **bilabial** and **dental** shifts are needed.
